Drop Feed

Knee Lift

Automatic Needle Lowering Mechanism

High Speed Straight Stitch Machine

The PQ1500S, the dream machine for any serious sewer...

PRECISION PIN FEEDING SYSTEM

perfect even feed for problem fabrics

“Pin feed” a professional feature for beautiful and accurate stitching.

It's easy to sew a wide variety of fabric thicknesses thanks to Brother's Pin Feed system for precision fabric feeding. The unique fabric separator feature joins lightweight linings to materials such as velvets and eliminates the puckering. The PQ1500S introduces an easy to use foot lift operation—the feed pin drops automatically when the presser foot is lifted.

KNEE LIFT easy foot lift operation

The removable knee lift enables you to lift your presser foot...leaving both hands free for fabric handling.

DROP FEED

The feed dog adjustment knob lowers the feed dogs below the fabric plate for free motion sewing.

PRESSER FOOT PRESSURE ADJUSTER

Rotate the presser foot pressure adjustment knob and adjust the presser foot pressure, color coded to coordinate presser foot pressure and feed dog height.

FEED DOG ADJUSTER

Sew with ease on a special fabric such as velvets.

F.A.S.T. NEEDLE THREADER

Fast and simple threading says it all! Saves time and your eyesight, by automatically feeding the thread through the needle's eye.

AUTOMATIC NEEDLE LOWERING MECHANISM

This convenient feature lets you pre-program the needle up/down position when the machine stops. Eliminates the need to rotate the balance wheel to lower the needle before rotating fabric during a continuous stop and start sewing operation.

AUTOMATIC THREAD CUTTER

With the touch of a button both top and bottom threads are neatly cut and threads are instantly reset for the next sewing operation.

BOBBIN CASE COVER

The side cover makes care and maintenance around the bobbin case a breeze. Simply lift the side plate to open the bobbin case cover. Convenient for cleaning dust and thread in the needle plate area and changing bobbins.

Metal bobbin for durability and increased thread capacity.

QUICK BOBBIN THREADING DEVICE

Change bobbins quickly and easily with the quick bobbin system with built-in thread cutter.

THREAD TENSION

Achieve accurate tension control with the convenient thread tension dial.

PQ1500S

PQ1500S QUALITY FEATURES

- High speed straight stitch machine with a maximum 1,500 stitches per minute.
- Expanded work area for large projects. More height and width in the fabric bed area.
- Heavy-duty construction for increased stability.
- Up to 7mm stitch length for perfect stitch lengths or basting.
- Pin feed mechanism for fabric management...even velvets.
- Knee lifter and bed extension table for quilting and fabric management of bulky projects.
- Built-in telescopic thread stand for cone thread usage.
- Full range foot pressure adjustment and 4 feed dog settings for maximum fabric control.
- Automatic thread cutter/F.A.S.T. needle threader provides time saving convenience.
- Thread tension adjustment dial for greater thread tension control.
- Fabric separator for perfect handling of difficult to join fabrics.
- Needle stops at lowered position for easy fabric rotation with the touch of a button, quickly returns to the needle up position when needed.
- Automatic thread cutter saves time.

ACCESSORIES INCLUDED

Flex reaction presser foot

Zipper foot

Concealed fastener foot

Narrow rolled hem foot

1/4" Foot

Fabric separator

Seam guide

Walking foot

Quilting foot

General purpose foot

OPTIONAL ACCESSORIES

Heavy weight foot
F049/XC1577-052

Very narrow foot
F048/XC1584-052

Gathering foot
F047/XC1612-052

Bi-level spring action guide 2mm
F044/XC1592-052

Bi-level spring action guide 5mm
F045/XC1599-052

Bi-level spring action guide 8mm
F046/XC1606-052
