

## 2250 Features and Benefits Chart

10 Stitch Patterns Including a Four-Step Buttonhole	A variety of stitches for construction, fashion sewing, quilting, crafts, and home decorating provides the perfect stitch for your projects.
Variable Stitch Length	Select the desired stitch length by a simple turn of the dial.
Pre-Set Stitch Width	Stitch width is automatically set when choosing a stitch.
Center Zigzag Taper	When tapering with the zigzag stitch, the stitch tapers to the center, not the left or right. This provides a more attractive look when tapering into or out from a point.
Automatic Reverse	Push and hold the conveniently located Automatic Reverse Lever to sew in reverse and reinforce stitches.
6mm Stitch Width	Most stitches can be set for a maximum width of 6mm. When sewing decorative stitches or satin stitches, the wide stitches are bolder and more pronounced.
Automatic Four-Step Built-In Buttonholes	Buttonhole sewing is an automatic four-step simple process, providing reliable results.
2 Needle Positions	Needle position can be changed for individual projects, such as inserting zippers or cording and topstitching.
Easy Threading	Thread a machine in seconds! No tediously following manual's instruction to thread the machine, just follow the arrows on the machine...and you are threaded in a snap.
Extra-High Presser Foot Lifter	There are 2 heights to the presser foot lifter. The second height offers more clearance, which is needed when placing multiple layers of bulky fabric under the presser foot.
Automatic Bobbin Winding Clutch	Needle bar automatically disengages when winding the bobbin.
Automatic Bobbin Winding	The bobbin fills and then stops when it's full. This fully automatic operation eliminates over-filling the bobbin.
Automatic Presser Foot Pressure Control	The amount of pressure exerted on the fabric by the presser foot against the feed dogs is automatic. Sew from light weight tricot to the heavy denim, without making presser foot adjustments.

## 2250 Features and Benefits Chart

Sewing Light	A 10-watt lamp illuminates the sewing surface for optimal viewing.
4-Segment Feeding System	This is a specially designed feed dog that ensures that the fabric is picked up and supported from the front of the presser foot to the rear. This makes for much more accurate feeding.
Aluminum Frame	The internal skeleton of the sewing machine. This rigid support holds all the mechanisms in perfect alignment for perfect, skip-free sewing.
Electronic Foot Controller	Guarantees consistent sewing speed with no jump starts.
Snap-On Presser Feet	Change from one to another effortlessly with Snap-On feet.
Free Arm	Provides professional results and easy access to cuffs, collars, pant hems and other difficult-to-reach areas.
Thread Cutter	Located for precise thread cutting, eliminating the extra step of cutting thread with scissors.
Quick Start Guide DVD	Great for beginners, this DVD demonstrates how to thread the machine and to get started sewing!
